FUTURE HOMEOWNER PROFILE

Fall 2022

Mustafa Dalil & Ansam Abdalgader

"I came to the U.S. to give my children a better life." _ Mustafa

Family Profile: Mustafa and Ansam have three children, 10 years old to 22 months. Mustafa works at CEVA Logistics as an operations leader in the warehouse. He has a bachelor's degree in management and has been at his current job for eight years. Ansam cares for their three young children. Mustafa and Ansam are from Sudan and came to the U.S. in 2014.

Housing Need: The family lives in a two-bedroom apartment and all three children share a bedroom. They are overcrowded and rent is high. A Habitat home mortgage payment will be approximately \$400 less than their current rent. Their best friends became Habitat homeowners in 2020 and encouraged them to apply.

Becoming a Habitat homeowner: "I came to the U.S. to give my children a better life and a chance to get a better education. Owning a home will give me peace of mind about my kids' futures."

"We are so crowded now; it will be a relief for everyone to have their own room."
